

Collectors' Items, Works of Art and Light Fittings / Friday, 29th December 2017 / Lot 405

LOT 405

A late 19th/early 20th century brown patinated cast metal model of a recumbent Tibetan terrier, raised on a green marble plinth with an applied stiff leaf band, length 20.5cm.

Estimate: £300 - £500

Condition Report

It appears to be a kind of bronzed cast copper electrotype. Definitely more of a cast shell than a solid cast bronze.
