

Cameras and Scientific Instruments / Thu, 25th January 2018 / Lot 1171

LOT 1171

A Negretti & Zambra oxidised brass surveyor's level transit theodolite, No. 2326, the telescope with rack and pinion focusing above a vertical circle with silvered scale, framing a compass with signed silvered dial, on adjustable feet, height 34cm.

Estimate: £60 - £100

Condition Report

1171. Very dusty, dirty and worn. Optics appear to be ok with no chips or cracks, no haze or fungus. Telescope works. Bubbles and compass are intact. There is significant wear to metalwork.
