LOT 2002

A late Victorian burr walnut framed five piece salon suite with overall parcel gilded decoration, comprising a three seat settee and four chairs, all upholstered in a palmette patterned fabric, raised on turned and fluted tapering legs terminating in brass castors, width of settee 163cm, width of chairs 56cm (lacking one castor).

Estimate: £600 - £900

Condition Report

2002. Small section of carving missing on back support of settee. One castor is missing on a leg of a chair. Overall typical surface scuffs and marks to frames but generally as you would expect. One of the chairs has a very small tear in the fabric of the seat but otherwise the condition of the upholstery is good. One rear leg of a single chair appears to have been professionally re-spliced at some stage but otherwise the lot is in good order.
