LOT 2029

An Edwardian oak tub back revolving desk chair, the pierced splat back above a solid seat, raised on four downswep legs, height 86cm, width 55cm.

Estimate: £60 - £90

Condition Report

2029. Very dirty and in need of an overall polish, wood surface is a little dried out. Slight gapping in seat panel. The revolving mechanism probably just needs a good clean and oil, as it is quite stiff. Otherwise in fair condition.
