

British and Continental Ceramics and Glass / Thursday, 22nd March 2018 / Lot 1427

LOT 1427

A green and vaseline glass epergne with frilled rims, late 19th century, the central trumpet above three smaller trumpets and three clear glass scroll branches, on a circular frilled bowl, height 59cm (minor damage to one trumpet).

Estimate: £80 - £120

Condition Report

1427. Main central trumpet missing section of rim which is not easily noticeable due to the uneven shape, also missing the very tip of its trailed detail, again this is an insignificant issue - we have the piece from the rim. One side trumpet missing tiny pulled section - really difficult to see. Otherwise ok.
