## Condition Report

538. Cut: modified round and faceted oval cut stones. Unable to get carat weight of peridot. The brooch is perhaps reconstructed from part of a bracelet. There is evidence of chain linkage beneath the setting of the pearls. Minor surface abrasions to stones but nothing of any significance. In good condition commensurate with age. Weight 8.9g. Not hallmarked but tests as 15ct. Would suggest it is early 20th century but difficult to be sure.
