

Furniture / Friday, 20th April 2018 / Lot 2020

LOT 2020

A 19th century Continental moulded terracotta circular wall mirror, modelled with a wide band of leaves, fruit and pine cones, diameter 90cm.

Estimate: £300 - £400

Condition Report

2020. General condition is fair with overall minor surface, flaking and a few small chips. There is a hairline crack through one side of the frame and an area of loss to the surface paint in one area. The inner slip which was covered in velvet is also quite worn. Having a look at the chip it appears to be made from some sort of light coloured composition and not terracotta.
