## Condition Report

1184. The case, overall, is in good condition but would benefit from a good clean and wax. Some very minor marks and the brown wood is visible in one or two places. Brass mounts would also benefit from a clean. There is a little damage around the door key holes and there is a small piece of moulding missing at the top of rear door. Movement appears complete with original pendulum. Mechanism will require clean to return to full working order. Complete with three keys.
