LOT 535

A platinum and diamond ring, mounted with the three principal circular cut diamonds in square settings within an openwork border, mounted with smaller circular cut diamonds, between diamond set two stone shoulders, ring size approx M, with a case.

Estimate: £800 - £1,200

Condition Report

535. This is a new ring fashioned in a period design. The stones have an illusion setting but a nice bright white sparkle to them. The central stone displays a number of small bubble inclusions when viewed with a x10 loupe, but overall the stones appear fairly clear.
