## Condition Report

2006. The top is relatively flat and has a good sound surface to the veneer, however please note the large gapping through the middle. There are several sections of veneer missing to frieze as well as some damage and loss to handle flanges. Also minor logs to beading. The sabre legs are ever so slightly loose, otherwise in good condition. Some minor surface mark throughout. Top depth 13.5cm, base height 58cm.
