LOT 620

A gold oval link bracelet, spaced with seven drilled natural saltwater pearls, on a boltring clasp, with accompanying The Gem & Pearl Laboratory pearl report, certificate No. 15855, stating largest 'pearl' 8.6-9.6mm in width, smallest 'pearl' 6.3-6.4mm in width, gross weight 14.99g, length of bracelet including clasp 18.5cm, together with a gold bar brooch, mounted with three drilled natural saltwater pearls, with accompanying The Gem & Pearl Laboratory report, certificate No. 15854, stating the centre 'pearl' 7mm in width, 8mm in length, gross weight 5.98g, width of brooch 4.7cm.

Estimate: £500 - £800

Condition Report

620. Bracelet: one pearl is chipped by the drill hole, in otherwise good condition. Brooch: the pearls to the brooch are drilled through and were possibly mounted together with the pearls from the bracelet at one stage. The pearls are generally in good condition, however one is showing slight peeling by the drill hole. Both pieces circa 1910.
