

Clocks and Barometers / Thursday, 12th July 2018 / Lot 1096

LOT 1096

A late 19th century oak cased Admiral Fitzroy barometer with paper dial and alcohol thermometer, the case with glazed front panel, height 103.5cm.

Estimate: £50 - £80

Condition Report

1096. This barometer appears to be in good working order. There is no separation in the mercury. All other parts of the instrument are in place and there is no reason to believe that it will not work satisfactorily. There has been a repair to the wood case, the very lower extension has been off at some stage. They have been re-glued but one is still loose.
