

British and Continental Ceramics and Glass / Thursday, 12th July 2018 / Lot 1478

LOT 1478

A Royal Worcester porcelain figure 'Hog-Hunting', modelled by Doris Lindner, printed marks including '3164' to base, height 17.8cm, with an ebonized plinth (restored).

Estimate: £450 - £500

Condition Report

1478. It is difficult to determine what has happened but it looks as though it has been broken in two (or at least cracked) through the base beneath the house and professionally restored. The factory title to the underside has been re-touched and there is discoloured yellow spraying to the underside. The restoration would seem to include the horses legs where they join the base. There may be re-touching elsewhere too.
