LOT 2085

A pair of late 19th century French walnut framed window seats, the upholstered armrests and seats raised on carved 'X' framed supports, height 72cm, width 66cm.

Estimate: £1,000 - £1,500

Condition Report

2085. The upholstery covering is shot and would need replacing. The overall surface patina and polish appears fairly original. Both stools are structurally sound with good solid joints. Both stools have some damage and loss to one of the carved shells at the centre of the 'X' frames. There are some overall minor scuffs and marks and a few very minor nicks to the edges of carving. Both stools have a few woodworm holes but literally just a very minor scattering.
