### Condition Report

Generally in good condition. Light fissures of craquelure, a few of which to the sky have touches of over-painting. UV examination highlights some other touches of over-painting to details. It appears to have had a previous clean. The work has been kept behind glass and as such is free from surface dirt, however, there is a yellowing to the surface throughout (except on areas of over-painting) and thus the work would benefit from a subsequent clean. Frame in good condition but with some minor chips to the gilt and composition and stress cracks to the composition.
