LOT 1110

A Japanese brown patinated bronze bottle vase, Meiji period, the compressed body applied with a grasshopper beneath a slender neck, incised signature to base, height 24cm.

Estimate: £200 - £300

Condition Report

1110. In good condition overall. Minor typical surface wear. On close inspection there is a small filled hole to the shoulders of the vase opposite the grasshopper - just visible in third image on our website and probably there since manufacture.
