

Furniture / Friday, 5th October 2018 / Lot 2239

## LOT 2239

A Charles II walnut framed armchair, profusely carved with overall putti and scrolling leaf decoration, the caned seat and back above turned and block legs, united by stretchers, on claw and ball feet, height 144cm, width 65cm (some repairs and alterations).

Estimate: £200 - £400

---

## Condition Report

2239. The chair has some overall typical faults with general historical woodworm throughout, minor surface wear and some damage to the back supports with added metal supports on back. There have also been later alterations with later seat rails, later made feet and stretchers and later carving, including a later surmount to the front stretcher. Some areas are reasonably original but the chair has had fairly substantial repairs and alterations throughout its life.
