## Condition Report

609. The Ceylon sapphire is of medium colour saturation but when viewed from the side the sapphire shows some windowing and unevenness of colour saturation. The sapphire has a few light abrasions to the edge. The two side diamonds are an attractive white colour, however they have a few internal inclusions, one having a significant surface reaching inclusion.

Sapphire approx 1.2cts. The diamonds are approx 0.10ct each. Probably 20-30 years old.
