LOT 515

A single row necklace of fifty-six coral beads on a coral bead clasp, fitted with a safety chain, length 39cm, gross weight 31.6g. diameter of beads 7mm.

Estimate: £70 - £90

Condition Report

515. There is slight variation of colour to the beads and some of the beads have a few surface reaching flaws. The beads retain a polish to the surface. The tongue of the clasp is rather bent but still works. The necklace would benefit from restringing. They are definitely old, we would suggest late Victorian/Edwardian era. Clasp is not marked but appears to be gold. Safety chain appears to be gilt metal.
