### LOT 543

An early 19th century gold mounted oval agate cameo brooch, carved as the portrait of a classical lady, width 2.7cm, with a box.

Estimate: £180 - £220

### Condition Report

543. The cameo is currently very dirty and would benefit from professional cleaning. There is an old line crack running from behind the ear down to the truncation of the bust. The darker hair ornamentation is chipped at the top. The piece is probably a clasp converted to wear as a brooch with a later added surround and brooch pin mountings.
