

Jewellery / Wed, 31st October 2018 / Lot 621

LOT 621

A gold, silver, sapphire and diamond nine stone cluster ring, mounted with the principal cushion shaped diamond within a surround of alternating cushion shaped sapphires and diamonds, ring size approx K1/2.

Estimate: £400 - £600

Condition Report

621. The diamonds and the sapphires have slight surface wear to the facet edges. One of the surrounding diamonds is partially tilted onto its side. There is slight variation of cut to the gemstones. The shank is slightly thin at the back. The design is a modern interpretation of an antique silver set style. Weight 3.9g.
