

Clocks and Barometers / Thu, 1st November 2018 / Lot 1199

LOT 1199

An early 20th century magnifying glass globe desk timepiece, the silvered circular dial with subsidiary month, date and day dials above a rolling moon, within a surround of black Roman numerals, the brass and glass spherical case with winder and ring surmount, height 11cm.

Estimate: £100 - £150

Condition Report

1199. Not running, it starts ticking but only runs for a few seconds or so. Otherwise case and glass in generally good order. Some scratch and knife marks where case has been opened at base. Appears to be a 30 hour example.
