

Clocks and Barometers / Thu, 1st November 2018 / Lot 1158

LOT 1158

An early 20th century French giltwood sunburst wall timepiece, the enamel dial with Roman hour numerals, diameter 40cm.

Estimate: £30 - £50

Condition Report

1158. Case in overall good condition. Minor chips to gesso at end of a few sunbursts, but nothing significant and only really visible from reverse. Dial is loose and has been badly repainted and lots of the paint is flaking off. The movement does wind but does not tick for more than a few seconds.
