LOT 2633

A late 19th century zinc framed hexagonal hanging hall lantern, each side inset with red flashed and foliate engraved panels, height 50cm, width 28cm.

Estimate: £80 - £120

Condition Report

2633. Much of the metalwork has an oxidized surface and the body of the frame is slightly misshapen. Some of the palmette mounts are also a bit misshapen and the whole piece is very dirty. All the glass panels seem to be in good condition with no cracks or chips.
