

Jewellery / Wed, 28th November 2018 / Lot 600

## LOT 600

A gold, silver and diamond cluster ring, mounted with the principal cushion shaped diamond within a surround of smaller cushion shaped diamonds between split shoulders, detailed '18ct', ring size approx P, with a box.

Estimate: £2,000 - £2,500

---

## Condition Report

600. The principal diamond slightly draws colour and has one or two gletz inclusions to the centre of the stone. The central diamond weights approx 0.90ct. The surrounding diamonds have slight variation of cut but are generally well matched and slightly draw colour. The surrounding diamonds weigh approx 0.05ct per stone. The ring is of an earlier style than it actually is. Weight 4.1g.
