LOT 632

A gold, emerald and diamond octagonal cluster ring, mounted with a rectangular cut cornered emerald within a surround of circular cut diamonds between graduated baguette cut diamond set two stone shoulders, detailed '18ct', ring size approx P, emerald weight approx 0.95ct, total diamond weight approx 0.70ct, with a case.

Estimate: £800 - £1,200

Condition Report

632. Relatively modern ring so condition is essentially as new. Diamonds all appear to be fairly bright white sparkly stones and well matched. The emerald is a fairly pale colour and under magnification there are typical line inclusions. With the naked eye it is a nice pretty ring.
