LOT 203

A silver gilt and foil backed green beryl cluster ring, mounted with the principal rectangular cut stone within a surround of four smaller square cut stones, otherwise with foliate divisions, between foliate scroll shoulders, probably Austro-Hungarian, unmarked, ring size approx O (gilt rubbed).

Estimate: £40 - £60

Condition Report

203. Overall wear to gilt highpoints on the mount, but no significant damage or repairs. Typical light surface abrasions to the stones and some visible inclusions when viewed under magnification. Weight 6.3g.
