### Condition Report

512. The sapphires are of dark colour saturation. The diamonds generally have a few internal inclusions and some inclusions which break the surfaces of the stones. The hinge is slightly wobbly. The two diamonds to the brooch fitting slightly draw colour and have a few internal inclusions. The thread to both clusters will not screw down securely and tightly to the ring mount. The other fittings screw down properly to the brooch, to the earrings and to the bangle. Cut: old European cut sapphires and diamonds. The florescence of the stones is faint. Colour: the sapphires are a deep blue, the diamonds are approx H-I. Clarity: the sapphires are clear to the unaided eye, the diamonds approx SI1-SI2.

Total weight 26.7g.
