

Jewellery / Wed, 23rd January 2019 / Lot 600

LOT 600

A gold, amethyst, green gem, half-pearl and seed pearl set pendant, mounted with the large oval cut amethyst within a border of seed pearls, the outer rim mounted with cushion shaped green gems, the front with a single cultured pearl and green gem set two stone drop, length 7.3cm (one green gem lacking from the suspension loop), with a neckchain on a cylindrical clasp, fitted with a safety chain.

Estimate: £300 - £400

Condition Report

600. The amethyst is of medium colour saturation. The outer half-pearls are in good condition but have a slightly subdued lustre. The cultured pearl drop maybe in association as it is polished to the back whereas the rest of the setting is matted. There is evidence of previous brooch fittings at 12 and 6 o'clock when viewed from the back. The brooch has been later converted for wear as a pendant with the addition of the top green gem set chain fittings, the green gems to the sides at 4 and 8 o'clock and with the addition of the pendant drop. The neckchain looks to be in good condition. The black inclusions present in the green gems would suggest that they are emeralds. The total weight of the green gems/emeralds approx 1.2ct. The total weight of the amethyst is 40ct, please note this is very approximate. Total weight 27.7g.
