LOT 1

Estimate: £100 - £200

Condition Report

1. Minor age toning to paper. Looks like some faint foxing to margin but underneath non-reflective glass which in addition to being difficult to see details is dirty on the inside. Mount has discoloured and is close to the image area. Unexamined out of frame. Frame later painted gilt and with some minor scuffs and scratches. Dimensions including frame 79cm x 61cm.

Further Comments

During the view someone has peeled back one corner of the backing. Carefully prizing this away you can just about see that the print is cropped to the image and probably laid down, this is based on a glimpse only.
