

Jewellery / Wed, 20th February 2019 / Lot 676

LOT 676

A gold, star sapphire, ruby and colourless sapphire set oval cluster ring, collet set with the oval star sapphire between two pairs of square cut rubies, and borders of colourless sapphires, ring size approx P1/2.

Estimate: £180 - £220

Condition Report

676. Overall generally good condition.

The setting is rose gold but does not bear any marks at all. The setting is in good condition with only typical light surface wear and scratches.

The star sapphire has a small chip to one edge and two small knocks/minor chips to surface. These are only really visible under magnification, which also reveals a couple of internal line inclusions. Otherwise stone has typical light surface scratches/wear.

Few of the colourless sapphires have minor chips to edges, again only really visible under magnification. Rubies and colourless sapphires have typical surface abrasions and wear.

The cluster is 1.7cm x 1.6cm.

The rim is a little dirty so would certainly benefit from a clean.

Without a hallmark it is difficult to date the ring but would suggest it is mid-20th century.
