LOT 1208

A Japanese brown patinated bronze sectional figure group, Meiji period, modelled as an eagle with wings outstretched, perched upon a rocky outcrop, with dragon's tail disappearing down a hole, height 56.5cm.

Estimate: £200 - £300

Condition Report

1208. Bird itself and sectional wings in good condition with typical light wear and surface scratches to patina, but no significant damage or repairs. The rocky base with some wear to highpoints, but otherwise in fairly good order. Three patch repairs to underside of base.
