### Condition Report

1414. Cover - two small chips to base edge, one encroaching on gilding.

Liner - good condition.

Jar - small chip to inner edge where cover sits. Crazed, particularly noticeable to the interior where there is some staining. Gilding to exterior shows some wear around lower body, and black ground has deteriorated over time resulting in a dull surface appearance with some minor flaking. Apparent in the photographs on our website which can be enlarged as required.
