## Condition Report

2012 - There are numerous scattered surface chips the silvered gesso on the stand. The top has some surface cracks to the sides, top and doors. Both doors are slightly warped, so they do not close properly. The metal lock is detached from the door and there is a chip to the edge of the door. There is some surface wear throughout, particularly to the top of the cabinet. The interior is missing a ring handle. Please note that the top cabinet is slightly deeper than the stand.
