### Condition Report

2557. General appearance is ok, however there are some cracks to the gesso, a few cracked pieces of mirror and a few pieces of mirror missing. Height 38cm.

The two earlier lamps have some overall surface flaking to the gilt. Also a few cracks to the middle mirrored panels, six mirror panels missing on one base and one other damaged panel to the other lamp.

The two later lamps that must have been made to match late in the 20th century have some overall cracks to the composition bodies and numerous cracks to several of the mirrored panels. These lamps are slightly taller and have quite a different gilded surface.
