### Condition Report

1098. Torch watch - there are a few faint hairlines running diagonally from 12 o'clock to 7 o'clock. Otherwise watch in generally good order with typical wear and scratches to case. It winds and adjusts smoothly and is currently working but please be aware we give no guarantees to working order or reliability of any clock or watch.

Large travel timepiece - dial is in very good clean condition. There is obviously only part of the case present. It is missing its winder so cannot tell you if it works, but when you give it a shake, the balance is free and ticks away nicely for a period.
