LOT 581

A 15ct gold ring with engraved decoration, the front applied with a rose cut diamond set fox's mask with red gem set eyes, ring size approx M1/2, with a case.

Estimate: £250 - £350

Condition Report

581. Good condition. No significant damage or repairs. Typical light wear and slightly more pronounced wear to foliate decoration on the shank. The ring is not marked.

The red stones are fairly small, so difficult to have a good look at. We do not think they are rubies hence the catalogue description 'red gem set'.
