LOT 507

A diamond and cultured pearl cluster bar brooch, circa 1900, mounted with the single cultured pearl within a surround of eight cushion shaped diamonds with two further pairs of cushion shaped diamonds mounted to each side, width 3.7cm.

Estimate: £200 - £300

Condition Report

507. The cultured pearl has an attractive silvery lustre. The surrounding diamonds have one or two internal inclusions, some of which are reaching the surfaces of the stones. There is some variation of cut to the diamonds. The brooch would benefit from careful professional cleaning. Weight 2.9g.
