LOT 519

A single row necklace of graduated seed pearls, probably natural saltwater pearls, on a rose cut diamond set barrel shaped clasp, length 47cm, diameter of largest pearl 4mm, diameter of smallest pearl 2mm (uncertificated), and a single row necklace of baroque cultured pearls on a white gold clasp, detailed '9ct', length 51cm.

Estimate: £100 - £150

Condition Report

519. Seed pearls - The graduated seed pearls have an attractive silvery lustre. The current stringing is not individually knotted, restringing with knots to ensure safety is recommended. The pearls are in good condition, the clasp is also in good condition. Cultured pearls ♦ There is some variation of size and colour but generally the pearls have a silvery lustre. The necklace would probably benefit from restringing.
