LOT 2103

A William IV mahogany dining table with single extra leaf, the moulded top raised on turned and reeded legs fitted with brass caps and castors, height 73cm, extended length 194cm, depth 122cm.

Estimate: £100 - £200

Condition Report

2103. Generally good overall appearance, having probably been well restored in the last 20 years. Good consistent polish with a few minor scuffs to top. One castor has a modern screw holding it on. Otherwise just some alterations to the structure of the legs, with the central legs having been fixed to the ends and just the clips and pegs holding the leaf in place.
