## Condition Report

2103. Generally good order with some overall surface wear. The main demi-lune frieze with the ram's masks appears to be early 20th century and is in reasonable condition with some overall light wear and scuffs. However, the ropetwist support seems to be an addition as stylistically it does not really match and the gilt is a slightly different colour. The marble is probably later in date and has some minor scuffs and scratches.
