Condition Report

2568. Generally there is some overall light wear, with minor surface scratches and scuffs, as well as bumps and knocks to corners. The spine which is covered in a patterned velvet is fine and the spring clasp is also working ok. The striped base section is a little bit scruffy with some minor loss to the surface and a bit discoloured. The musical movement seems to be operating ok and has a good bright sound. The interior pages are quite browned and slightly bumped but generally ok.
