LOT 586

A gold and brown agate intaglio shield shaped signet ring, crest and motto seal engraved, otherwise with ridged decoration, ring size approx I, a garnet nine stone cluster ring, detailed 'Silver 9ct', ring size approx P1/2, and a chalcedony fob seal, crest engraved, height 2.5cm.

Estimate: £150 - £250

Condition Report

586. Agate shield shaped ring ♦ the intaglio has slight uniform wear and one or two nibbles to the facet edges. The back has been blocked up with material so it is not possible to view the back of the stone. There is some surface wear to the shank of the ring. Garnet cluster ring ♦ one or two surface marks to one or two garnets. The split shank is partly split through by one shoulder. The ring would benefit from professional cleaning. Chalcedony fob seal ♦ the intaglio is a little dirty. There is slight wear to the edges and has one or two nicks. A section of the gold mount is split away and is now absent. Signet ring ♦ weight 11g.
