LOT 590

A platinum, aquamarine and diamond pendant, claw set with a circular cut aquamarine within an openwork petal shaped surround, mounted with rose cut diamonds, the front with a pear shaped aquamarine and rose cut diamond pendant drop, length 4.5cm, with a Harrods case.

Estimate: £1,400 - £1,800

Condition Report

590. It is possible that the pendant drop is in association with the top. There is a different style of setting to the drop compared to the top. It is possible that the central section is in association with the surround. The aquamarine is of pale colour saturation. The diamonds are of varied cuts and some look to be diamond chips rather than cut stones. There is a repair connecting the central section with the surround. The aquamarine has one or two facet edge chips.

Weight 6.1g.
