LOT 533

A gold mounted mourning bracelet with a tree branch design to the links, on a boltring clasp, detailed '9ct', with a box, length 21.8cm.

Estimate: £30 - £50

Condition Report

533. One link is becoming loose from its setting and is moving within it. Otherwise the bracelet is in generally good condition, with the odd small scuff and dent to the links. Boltring is marked '9ct' and confident the other mounts are the same, but bracelet has not been tested for gold. Cannot be 100% sure on the material of the links, however we feel it may be bog oak.
