## Condition Report

2035. The top has some surface wear, some surface scratches and a stain to the centre panel. The front frieze panel and the two sides have small sections of veneer loss. The right-hand side of the kneehole has a section of veneer lacking and a quite large piece of veneer loosely attached. The sides of the legs and some of the brass mounts are scuffed and marked. Small section of damage to the veneer on rear right corner of top and the left side handle is loose. Original polish throughout and nothing really altered. The three hinged flaps all work fine and the interior mirror is a bit distressed to its edges.
