LOT 2622

An early 20th century oak cased table top gramophone by Thorens, fitted with a pressed tin horn, height 64cm.

Estimate: £50 - £80

Condition Report

2622. The horn and case are both in fairly typical condition for their age, with some minor dents and scrapes. The base has been cleaned back. Having wound it, however, the mechanism does not seem to be working the turntable.
