

Furniture / Friday, 6th December 2019 / Lot 2026

### LOT 2026

A small 17th century oak six-plank coffer, the hinged lid revealing a candlebox, on shaped supports, height 37cm, width 87cm, depth 30cm (some alterations).

Estimate: £120 - £180

---

### Condition Report

2026. There is fairly typical levels of historic woodworm to the edges of the boards, front edge of top and bases of feet. Later strap hinges and support bars added to the underside edge of the top. Probably an associated lid, as there is no sign where a lock clasp would have attached. The moulded strap that goes around the apron is a later addition and the front flange of each support has also been replaced.
