## Condition Report

2080. The general condition and appearance is good, having had some overall areas of fairly minor restoration. Some of the mouldings have been replaced around the frieze and front but all this has been done well. The brassware has been replaced but suits the piece well. The top drawer appears not to have ever had a lock but the other two drawers do have their locks. The bun feet are later replacements. Overall minor surface bumps and scratches, a very thin crack running through the fall flap and some evidence of old woodworm to backboards.
