LOT 219

An 18ct gold, diamond and sapphire cluster ring, mounted with the principal circular cut diamond within a surround of six circular cut sapphires and an outer border of circular cut diamonds, London 1973, ring size approx M1/2.

Estimate: £400 - £600

Condition Report

219. Diamond and sapphire cluster ring - generally good condition. No significant damage or repairs. Nice bright white sparkly diamonds and nice vibrant blue sapphires. Typical light surface wear and scratches. There is sufficient variation of colour to the sapphires to suggest they are natural sapphires. We do not have a total carat weight for this ring, however the central diamond is approx 0.20ct. Cluster diameter 1.4cm. Weight 4.1g.
